

IT Project Manager

Integrated Point of Sale, Inc. has a fulltime opening for an IT Project Manager/Installer, working out of our Quad Cities corporate office.

IPOS, a touch screen solutions point of sale provider, provides high quality technology services for restaurants throughout Iowa, Wisconsin and Illinois.

Applicants must have extensive knowledge and experience in computer hardware, networking and Windows OS. Applicants will be asked to demonstrate their IT knowledge during the interview process.

Successful candidates will be highly professional, well-spoken, career motivated individuals; restaurant management/operations experience a plus.

Job duties include programming and installing touch screen systems for our clients as well as overseeing training, help desk services and live support for each installation.

Some overnight travel will be required within our three-state sales area (Illinois, Wisconsin and Iowa), with a company car and expenses provided. A clean driving record is required.

Ongoing specialized training will be available.

This is a salaried position with a full benefit package including 401k.

If you feel like a good fit for our team, please send your resume and cover letter to: jobs@integratedpos.com
